About Me

Final-year B.Tech Computer Science student with hands-on experience in building scalable applications using Python, Java, C++, and SQL. Skilled in data structures, machine learning, and full-stack development. Developed a credit card fraud detection system and a real-time web app with React and Node.js. Certified ServiceNow System Administrator & Application Developer, adept at streamlining enterprise workflows. Passionate about solving complex problems and delivering impactful, real-world tech solutions.

Education

SRM Institute of Science and Technology , B.Tech in Computer Science and Engineering	June 2022 – May 2026
• CGPA: 8.98/10.00	
Adarsh Sanskar Vidyalaya & JR. College , Pre-University Education	May 2022
• Percentage: 78.81%	
St. Vincent Pallotti School , Secondary Education	May 2020
• Percentage: 91%	

Experience

Software Developer Intern , LogicGoals System, Nagpur	Dec 2024 – Feb 2025
• Developed the company's official website with a responsive interface, scheduling and enquiry features, and integrated secure payment systems for client websites to enhance transaction reliability.	
• Designed and implemented intuitive UI components for multiple web projects, used tools like php, html, css, javascript.	

Publications

ANITA: Advanced Novel Integration of a Tiered Aggregator for Credit Card Fraud Detection	Jan 2025
Proceedings for SCOPUS-Indexed Springer Book Series: Lecture Notes in Networks and Systems. Presented at the International Conference on Information Technology and Artificial Intelligence (ITAI 2025)	

Projects

Advanced Novel Integration of a Tiered Aggregator for Fraud Detection	github.com
• Developed a stacked ensemble machine learning model for fraudulent credit card transaction detection, addressing class imbalance without oversampling for a robust fraud detection system.	
• Utilized: Python, Scikit-learn, XGBoost, NumPy, SciPy, Pandas, Matplotlib, PCA, StandardScaler.	

Study Notion	github.com
• Designed and developed Study Notion, a cloud-based e-commerce platform for e-learning, enabling students to access and purchase online courses.	
• Utilized: AWS EC2, S3, RDS, Lambda, CloudFront.	

Agro Connect	github.com
• Developed Agro Connect, a web-based platform enabling farmers to sell products directly to customers, promoting fair pricing and accessibility.	
• Utilized: SQL Queries, Flask.	

Technical Skills

Languages: Java, Python, C++.

Tools: Mern Stack, ServiceNow, Aws, Power Bi, Firebase.

Global Certification

ServiceNow: Certified System Administrator.

ServiceNow: Certified Application Developer.

GitHub: GitHub Foundations.

Awards & Achievements

Best Project Award – Techknow 2022-2023	April 2023
Department of Physics and Nanotechnology, SRM Institute of Science and Technology (SRMIST)	
Awarded for presenting and demonstrating the project "Weather Station" at Techknow 2023, held from April 24-28, 2023	

Positions Of Responsibility

Corporate Member, IEEE SRM Student Branch

- Managed event planning, marketing, and student outreach while securing sponsors and industry speakers through strategic pitching and corporate collaborations.

Additional Information

Soft skills: Problem Solving, Networking, Communication Skills, Teamwork, Leadership, Adaptability, Active Learner.

Interests: E-Sports, Trekking, Travelling.
